

TRIAL KEYS

A Trial Key of Fractured Online allows you to play the game for **7 days** (real time, not game time) through our **standalone launcher** from the moment it is activated.

To activate a key, you first need to create a Fractured Online account (if you don't have one already): <https://fracturedmmo.com/register>
Please note: each account can only claim 1 Trial Key.

Next, you need to open your Account menu and click on Activate Key:
<https://fracturedmmo.com/account>

Once you are done, you will receive instructions on where to download the client - if you've missed it, it's here: <https://fracturedmmo.com/play/>

Once the key is expired, you can continue playing by buying a Founder Pack on [our store](#) or by buying the game on [Steam](#).

If you choose to buy on Steam, once you launch the game for the first time there you will be able to link your Steam account to your Fractured Online account, so don't worry, you will not lose your progression!

Thank you for reading and enjoy Fractured Online!
